Pre-announcement as to construction work in 2019 in connection with our runway reconstruction

Dear Sir or Madam,

During the past summer season in 2018, further reconstruction work has been executed on our runway and the adjacent taxiways and aprons.

During the upcoming years, we will also conduct further reconstruction works and implement EASA stipulations. In 2019, the runway will be closed for nine nights in total. In order to finalise the construction works before Pentecost we will close the runway over three short periods with three consecutive nights (Friday to Saturday, Saturday to Sunday and Sunday to Monday) each.

We ensure you that we planned all necessary construction measures in the scope of the reconstruction with regard to a minimum of constraint to air traffic and by paying attention to the public and school holidays in Bavaria as well as the adjacent German Federal States.

The following measures will be conducted in 2019:

- Partial reconstruction of the runway surface
- Renewal of markings on the runway, taxiways and apron
- Renewal of signs
- Partial renewal of the runway lighting system
- Implementation of EASA stipulations
